

# Your Stories

Week three is an opportunity to use the other resources in the leader's pack and the time you spent at the Clergy College to create your own session, based on bringing together participants' experiences of the previous two sessions but with a focus on the future

## AIMS

- For participants to engage with setting a direction for your church built on a stronger appreciation of God's action in the world and how he works today in your parish, building a clear understanding of what it means to be God's people.

## RESOURCES

- Consider using the resources in this pack, or contact the AMD team if you have a specific area you would like to explore but need help to think about how you can do it.

## SESSION PLAN

For week three, we have not provided a session plan. Use these resources and the ideas and experiences from the Clergy College to create your own session.
