

God's Reconciliation

This Leader's Guide will help you to deliver teaching and leadership about God's Reconciliation. Sessions at the Clergy College will also help you to lead this session.

AIMS

- To bring reconciliation from an issue that happens to other people and in other places, to an issue that affects us personally and changes our community and our relationships for the better.

SESSION PLAN

For week three, we have not provided a session plan. Use ideas and experiences from the Clergy College to create your own session, focusing on bringing the ideas of reconciliation and forgiveness to a local and personal reality.

You may also wish to look at a DVD focussing upon the topic of reconciliation and then discuss its relevance for your church. One suitable example is *Beyond Forgiving: A South African Story* (available from the AMD office).
