EXTENDED STUDY OPPORTUNITIES in Egypt, North Africa, Ethiopia & the Horn of Africa

Please pass on this information to anyone who is exploring the possibilities of study leave or a sabbatical in any part of the Province of Alexandria. We will be glad to help them with further information and contacts, to put together a programme that aims to fulfil their hopes and objectives.

Egypt is one of those rare places where Christians and Muslims have lived side by side for centuries. Positive interfaith relationships have been established by faith leaders there and are strengthening all the time. The Anglican church, with the Presbyterian and Roman Catholic churches, takes a leading part in these growing relationships. The Anglican dioceses have their own network of churches, schools, hospitals and specialist ministries in response to God's call in these places, with a warm welcome for those who visit.

The leaflet points to some of the opportunities for experiencing first-hand the Christian presence, ministry and witness in North Africa today. It has so many rich opportunities to offer us, so much to teach us. We hope that more people will take these opportunities for themselves, in the course of their training or later in their ministry.

We are glad to be contacted and can give more information to anyone who wants to explore these opportunities further. If a colleague of yours deals with these matters rather than yourself please would you be kind enough to forward the information to them.

With our prayers and warm good wishes

The Revd Canon Christopher Andrews
74 Daisy Avenue, Bury St Edmunds IP32 7PH
