

FIVE CRITICAL QUESTIONS

to put to your local Member for Parliament

1 How are you going to reverse the continuing decline in wildlife?

4 What actions are you taking on the climate emergency?

2 What is your plan to tackle the pollution in Cornwall's rivers and sea?

5 How are you planning to make sure everyone in your constituency is able to enjoy nature locally?

3 What measures would you take to increase nature-friendly farming?

We've included an easy to complete feedback scale on the reverse of this card, so that you can record your evaluation for any of the local parliamentary constituency candidates you have put our five questions to.
