

## One more step along the world I go.

At this time of year, we spend time thinking about the next steps we will take.

DIOCESE OF TRURO  
**EDUCATION**

Your next step could be a new class, school, year group, town...

Use this sheet to help you think about what has passed and what will come and how God can be, and is, part of that.

### What are you thankful for?

We can pray to God to tell him of what we are thankful for. What or who do you want to say thank you for?

Perhaps it's an adult or a friend. Maybe it's something you have learned or done this year at school? If you're leaving your school, perhaps you can pray for your most special memory.

### I'm looking forward to...

What are you looking forward to? Is there something that you know will happen next year? Write about it or draw it here. Pray that God will be with you when this happens.

### Building blocks

As well as being made of actual blocks, schools are built out of people, values and actions. Use these building blocks to show what your school is made of. What makes it so special?
